

295. Find Median From Data Stream

- max_heap

- min_heap

odd $\rightarrow |min_heap| = |max_heap| + 1$

even $\rightarrow |min_heap| = |max_heap|$

Maintaining the heap invariant sizes

min_heap 2 3

max_heap 2

push(min, val)

push(max, pop(min))

push(min, pop(max))

} Maintains top/bot

if $len(min) - len(max) == 2$:

push(max, pop(min))

} size invariant
